# Everything teachers need to make great teaching easier.

## Customise to your liking

Use LaunchPacks right out of the box or customise every Pack to fit. Shorten articles, remove media, annotate text, even add your own materials - you have full control.

## Great content is differentiated content

With up to 3 reading levels, every student can access the same information at a level they're comfortable with. For extra support, built-in tools like read-aloud and translation are just a click away.

## Diversify learning pathways

Every curious mind is different. Which is why every Pack lets students choose which themes, subtopics or media types they want to engage with. Students are free to guide their own learning, while teachers can feel confident that it's all aligned to curriculum.

## Trust the experts

Every LaunchPack is thoughtfully put together by experts, regularly updated and free from bias. We take extra care vetting every piece of content, so you don't have to.

- Differentiate**  
Choose a Pack from four different levels
- Customise**  
Edit the contents of a Pack or add your own documents & web links
- Scaffold**  
Add instructions, ready-made activities or a Kahoot! quiz
- Share**  
Assign a Pack to your students using a direct link or via your LMS
- Review**  
Review activity responses to monitor student progress
