

# Task: Quipu

**Make your own quipu of 5 strands where each strand represents a number e.g. your birth year. Present your quipu to the class and explain the importance of each number.**

*Tip:* Incas did not invent a writing system, instead they created a quipu. A quipu was a device the Incan people used to record information. You can learn how to make a Quipu by watching <https://youtube/6XS1kwqG0SY>
