

Task: Winter Olympic Sports

The Winter Olympic Games consist of many unusual and interesting sports, such as biathlon (skiing and shooting), bobsledding, curling, ice hockey, ice skating, luge, skeleton sledding, skiing, ski jumping and snowboarding.

Research a Winter Olympic sport and create an **informative table** describing the sport, its origins and history.

Tip: You can find information on various Winter Olympics sports in the Britannica School 'Winter Olympics' resource pack.

Sport Name and Origin	
Description	History
