

Task: Transparency vs. Opacity

Create a definition for each of the following terms: translucent, transparent and opaque. List examples of objects for each term.

If you lived in a cold climate like the Snowy Mountains in Australia or the south Island of New Zealand would you cover your windows in cellophane or foil? Why?

Translucent:

Transparent:

Opaque:

List items which are translucent:

List items which are transparent:

List items which are opaque:

If you lived in a cold climate like the Snowy Mountains in Australia or the south Island of New Zealand would you cover your windows in cellophane or foil? Why?
