

Task: Weather v Climate - Part 1

Using materials found in the Britannica "Weather" resource pack, explore the concepts of **weather** and **climate**. Create a mind map brainstorming key ideas related to each concept.

Task: Weather v Climate - Part 2

Compare and contrast the concept of weather to that of climate. What is the same about each idea? What is different? Record your ideas in the **Venn Diagram** below.

Tip: Use the mind maps you created in "Task: Weather v Climate - Part 1" to help you compare information about the weather to information about climate.

Weather
